

henrybuilt

Design Intern (paid)

Henrybuilt, a luxury design and manufacturing company, is seeking a full-time design intern to join our Design Team. This position will be full time and based in one of our offices (New York, Mill Valley, LA or Seattle) to collaborate with our Design Team.

You will:

- Collaborate with our design team to customize Henrybuilt kitchen systems for clients' homes.
- Create precise CAD drawings and specifications for client approval.
- Develop detailed specifications for production.

This role offers the chance to grow with an innovative company in the thriving US market. High-performing interns often transition to long-term roles within 6-12 months.

Qualifications:

- 1-3 years of experience in residential architectural design or equivalent field.
- Proficiency in AutoCAD and similar design tools.
- Proficiency in MS Office Word, Excel and Google Suite.
- Exceptional written and verbal communication skills, proven by references highlighting consistent deadline adherence and thorough work completion.
- Strong system thinking abilities.
- Ability to work in a team environment.

A bachelor's degree in architecture or industrial design is required. Additional experience in manufacturing, production or the building industry is a plus.

Expected work hours for this role are in office M-F 9-5 in NYC, MV, LA or 7:30 - 3:30 in Seattle.

We seek motivated individuals who thrive in team environments and are driven to contribute to a premier brand.

To apply, please submit your resume, cover letter, and portfolio to careers@henrybuilt.com.

-

We cannot accept telephone or in-person applications. Due to the large number of submissions we receive, we cannot respond unless you are selected for an interview.

Henrybuilt was founded in 2001 to create a new standard of quality in the areas of the home that are most central to daily life. We focus on creating a uniquely high-touch experience—often starting with the kitchen but increasingly including almost every room in the home.

The foundation of our approach is an integrated, flexible system of products and furnishings that include cabinets, wall panels and doors but go well beyond traditional cabinetmaking and millwork.

Integrated into Henrybuilt kitchens, dressing rooms, bathrooms, and entryways are specialized components designed for specific purposes. These components are designed to be adaptable as your needs evolve and change.

We also provide the specialized design service required to assure a highly refined and unique outcome to fit your home and your lifestyle.

We practice luxury-level craft and use only the best materials, weaving them carefully into the architecture we work within. The result is a timeless, custom outcome with forward-thinking performance.

Having won more than 60 international design awards, we operate design studios and offices in New York, Los Angeles, and the San Francisco Bay Area, as well as an 80,000-square-foot design, engineering, and manufacturing facility in Seattle. From these locations, Henrybuilt has completed more than 6,000 major projects for clients throughout North America, Europe, and Asia.
